HerbRxxx: Concentrate | Perfect for those who just want concentrated CBD without any flavor. This is awesome for the flavor enthusiast, those who enjoy mixing their own flavors. We don't believe in holding our customers' hostage to use our flavors. This allows users to continue to vaporize their favorite brand of flavor they normally get, and can decide how much concentrate to use to suit their liking. This allows our customers to continue using their favorite brands of E-Liquid flavors and can still get the potential benefits of CBD in their juice. We rather our customers purchase our flavors because they genuinely enjoy smoking them which we are sure they do!
